Educational Expertise Institute has distinguished faculty members to provide quality education to the students.

Faculty members have embraced innovative teaching technique to provide quality education in a participatory learning environment in the classroom.

The strategy for academic excellence has been always thrived upon by the institute by adopting effective teaching pedagogy (participative learning, case studies, role plays, management quizzes

and online assessment of the students) which has yielded good academic results.

For grooming students according to industry needs and to interact with industry professionals the institute frequently conducts guest lectures, workshops, seminars etc.

The institute also conduct industrial visits and academic excursion tours, which enhances the practical knowledge of students.

Top-notch knowledge partners are T-Series, IMS, ICT Academy (Oracle, AWS) Organisation of Alumni Meet: To know the tips and tricks to enter in the industry, upcoming opportunities and challenges with the budding professionals, the institute organizes the alumni meet to interact students with alumni.

Organisation of Fresher's party and Fairwell Party:

To orient existing students and upcoming students. Outreach Programs Trinity Institute of Professional Studies (TIPS) has traditionally prioritized social outreach programs in order to instill in students a sense of social belonging.

The institute has partnered with Bharat Vikas Parishad (BVP) and Sai Sewa Sansthan to enhance students as a responsible citizen of nation, to develop moral and ethical values, also contributing to nation building through involvement in various social development initiatives. National Service Scheme (NSS) activities adopting a nearby village to raise awareness of social well-being, health, and hygiene, as well as the delivery of sanitary supplies to the less fortunate.

Nukkad Natak, a dramatic society of the state run by TIPS students, is used to raise awareness about social issues.

Environmental Consciousness:

The institute has taken a proactive approach to raising environmental awareness among students, in line with the environmental studies topic curriculum. Students are encourage to think out of the box to support of their natural environment and to participate in environmental activities with new ideas as part of the campaign.

Students have made a substantial contribution to this initiative by planting air purifying plants in classrooms in a creative manner to reduce air pollution in a controlled environment.

Furthermore, students made the most use of discarded materials by planting various plants in them to beautify and purify the Institute grounds. Students' involvement and Participation in societies, clubs, committees under the guidance of faculty and specially hired industry trainers and controlled by student coordinators, co coordinators, members.

The active participation of the students in providing inputs and suggestions for the curricular, co-curricular and extra-curricular activities improves the quality of the hands-on skills, inculcates the sense of belongingness towards the campus, society and nation at large.

3600 Holistic Development:

During the course of academic training and following the curricular and co-curricular practices in student friendly academically excellent environment the students have 360 degree holistic development. After the completion of their respective courses they have to be ready to enter in their professional life to work as a responsible citizen for the development of the society and the country at large.
