LEARNING OUTCOME

To a great extent, National Conference TIPSCON 2022 has helped all the learners to understand the concept of resilience and reinvention & its impact in the field of management, IT, Media and Law.

This platform has provided an access to broaden the views of students and faculties in the field of research.

The conference was highly applauded for bringing together great minds from different fields of research. Their views and discussions made the audience see how resilience is important in the growth of any organization and can bring radical change in future through active questioning and participative action.

There was also an emphasis on various topics, especially in the technical session discussions, to make the audience realize how the whole idea of resilience and reinvention is changing with the changing perception of world.

The event gave rise to discussions that looked critically such as role of Artificial intellectual and IT in education.

The conference also provided an active platform to discussions on the views of researchers to collaborate with external technologies and inventions.
