INSTITUTIONAL BEST PRACTICES 2018-19

Formation of Book Reading Club at TIPS, Dwarka

Placing Air Purifying Plants (Areca Palm) In Class Rooms

In the adoption of best practices at TIPS, Dwarka, the IQAC has initiated the first phase of placing Air Purifying plants (Areca Palm) in class rooms of Management and Commerce Department on 16 Apr 2019.

INSTITUTIONAL BEST PRACTICES 2017-18

Usage of Electronic Media in Teaching Learning

This is being extensively used for almost all the courses so that the students are able to understand the content in better way. The aim is to clear the concept based on the material provided with reference to the content in syllabus into convenient modules. For each module, the teacher prepares a set of informatics, sketches, graphs etc. and upload it in the Intranet which the students browse, see & understand at their own pace & comes prepare to the classes. The teacher elaborates the content with illustrations, case studies & videos so that it gets embedded into the mind of the student.

Use of LED Lights

The institute has adopted the usage of LED light in principle for energy conservation & vibrant light effects. In this process all old electric lights have been replaced by LED lights in all spheres.
